<b>Title:</b> AUS Ex Certified DGS Downhole Instrument			
<b>Product:</b> PROD0114	<b>Author:</b> Steve Clifton		
<b>Importance:</b> High	<b>Affected Departments:</b>	<i>Design</i>	-
		<i>Production</i>	-
		<i>Service</i>	✓
		<i>Marketing</i>	✓

**Issue**

Due to obsolescence and limited supplies of some critical components, Service/Repair of the following DGS Products is becoming more and more difficult and some levels of Service/Repair are anticipated to become limited within the next 6 months:

- PROD0114 - DGS DOWNHOLE SURVEY ONLY INSTRUMENT I.S.
- PROD0114-RR - DGS DOWNHOLE SURVEY INSTRUMENT ONLY REPAIR AND RETURN

INDUSTREA MINING TECHNOLOGY PTY LTD  
 DGS DOWNHOLE INSTRUMENT  
 Ex s ZONE 0 [ia] I IP68 (1300m)  
 AUS Ex 3870X

**Corrective Actions**

Since the AUSEx Certification Scheme was finalised on 31st December 2017, we are no longer able to manufacture or supply new PROD0114 - DGS DOWNHOLE SURVEY INSTRUMENTS however we now offer the IECEX Certified PROD0914 - DGS INSTRUMENT IECEX.

This Product is only suitable/compatible with the IECEX approved PROD0896 - DGS U/H COMPUTER (TOUCHSCREEN) IECEX - BASE MODEL.  
 Wabtec do offer an upgrade of existing system and this includes  
 SERV0031 - IECEX DGS UPGRADE WITH AS3800 OVERHAUL

Industrea Mining Technology Pty Ltd  
 PROD0914 DGS INSTRUMENT  
 Ex ma [ia] I Ma  
 -20°C ≤ Ta ≤ +40°C  
 IECEX ExTC 17.0002X  
 IP68 (1300m)

**Customer Impact**

UIS Directional Drill Rigs fitted with Ex Certified DGS Survey Systems can only be operated with the appropriate DGS Downhole Instruments connected.

NOTE: It is mandatory that only the correctly Certified Ex Products be connected together.

**Part Numbers Affected**

Part Number	Description
PROD0114	DGS DOWNHOLE SURVEY ONLY INSTRUMENT I.S.
