

REVOLUTIONIZING THE WAY THE WORLD MOVES FOR FUTURE GENERATIONS

Wabtec is a leading global industrial technology company providing equipment, systems, digital solutions, and value-added services for multiple industries. Drawing on more than 155 years of experience, we are leading the way in safety, efficiency, reliability, innovation, and productivity. Whether it's freight, transit, ports, logistics, mining, industrial, or marine, our expertise, technologies, and people are transforming the markets we serve.

With roots that date back to George Westinghouse, Thomas Edison, and Louis Faiveley, Wabtec has always built technologies and implemented solutions for a variety of sectors that are critical to meeting the needs of customers and governments alike.

SUSTAINABILITY

Innovating with purpose

We are committed to developing responsible and sustainable products that minimize the impact on the planet.

Driving responsible operations

We are committed to providing safe work environments and products that enable productive and efficient use of resources.

Empowering people and communities

We are committed to driving a culture built on integrity, empowering our people, and investing in the communities where our teams live and work.

GLOBAL FOOTPRINT

~20% of the world's freight is moved by a Wabtec locomotive.

On average, Wabtec locomotives travel over 1.5 billion miles per year in some of the harshest conditions.

~30% of freight rail cars in operation have Wabtec products on them.

Wabtec's Trip Optimizer has helped customers save more than 1 billion gallons of fuel to date, avoiding more than 10 million metric tons of CO₂.

Wabtec provides products and components to virtually every major rail transit system around the world.

WHAT WE DO

FREIGHT EQUIPMENT

Wabtec locomotives move the world with a comprehensive set of best-in-class products that deliver unmatched reliability and efficiency for our customers. We are also meeting customers' sustainability and clean air needs with products like our Tier 4 locomotive, which reduces NOx and particulate matter emissions by more than 70%, or the FLXdrive battery-operated locomotive, which has the potential to reduce fuel and carbon emissions by up to 30 percent. And our equipment offerings go way beyond rail. Wabtec also has a deep portfolio of products for the mining, drilling, and marine industries.

FREIGHT SERVICES

To extend the lifecycle of our customer's locomotives, Wabtec provides integrated services designed to maximize the reliability and availability of their equipment as cost effectively as possible. Whether it's modernizations, rebuilds or upgrades; multi-year service agreements; or maintenance-of-way services, Wabtec works hard to keep freight rail operating at peak performance.

DIGITAL INTELLIGENCE

As industries seek greater insight to improve safety, reliability, and operational efficiency, Wabtec helps customers turn data into decisions. The company's Digital Intelligence portfolio brings together software, analytics, and advanced inspection technologies to monitor mission-critical asset condition, optimize operations, and reduce downtime. With deep roots in rail and growing application across industrial markets, these solutions deliver actionable insight across assets and operations that enable customers to succeed.

COMPONENTS

With more than 155 years of engineering experience, Wabtec delivers a comprehensive portfolio of components and systems that support transportation and industrial operations worldwide. Anchored by deep expertise in the rail industry and extending into industrial markets including mining, marine, power generation, and energy solutions, these components are designed to improve efficiency, reliability, safety, and overall performance.

TRANSIT

Almost every major transit system around the world relies on Wabtec to move billions of passengers safely, sustainably, and comfortably every day. Whether it's improving air quality for passengers with cleaner, greener HVAC systems; providing safe, reliable braking systems; or refining accessibility with advanced door system technology, our products leverage Wabtec's deep experience to meet the specific needs of our customers.

OUR PEOPLE

Wabtec is more than just its products. Our people are some of the most talented and passionate professionals in the industry, all driven by the same purpose – to move and improve the world – and guided by our values of safety, customer focus, excellence, innovation, and teamwork. Our inclusive culture attracts a team with different backgrounds, skills and perspectives and that diverse thinking leads to the kinds of innovative ideas that best meet the needs of our customers.
