Neither the Purchaser nor the Supplier shall be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.

(v) Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.

(vi) Data developed by the Purchaser or Supplier and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the underlying contract to which this Attachment has been added is exempt from the requirements of subsections (b), (c), and (d) of this clause, provided that the Purchaser or Supplier identifies that data in writing at the time of delivery of the contract work.

(vii) Unless FTA determines otherwise, Supplier agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with FTA funds.

(c) Unless the Federal Government later makes a contrary determination in writing, irrespective of Supplier's status (i.e., a large business, small business, state government or state instrumentality, local government, nonprofit organization, institution of higher education, individual, etc.), the Purchaser and Supplier agree to take the necessary actions to provide, through FTA, those rights in that invention due the Federal Government as described in U.S. Department of Commerce
