

Driving safely
is what matters

TOM Driving Monitoring

Safety Tachometry & Event Recorder

Fully & quickly customizable,
preserving TOM safety SIL
certification

The variety of TOM products makes for easy vehicle integration, whether it be LVR, metro, mass transit or mainline train.

Most specific project requirements can be easily implemented using the unique safe configuration capabilities of TOM.

Advanced customization suite

- Elementary generic blocks library
- XML description of train applications
- Ensures safe operation of customized application

Expertise, safety, reliability

- More than 30 years of experience
- Up to SIL4 developments applications

CUSTOMER BENEFITS :

- + Time & cost savings
- + Independence & flexibility
- + Configuration by your own system engineers
- + Preserve product safety certification
